Rue du Marché, 46
1210 - Brussels

SUMMARY

Education Bachelor: Translation English - Chinese
Institut Libre Marie Haps
Masters: Cultural Management
Université Libre de Bruxelles

Languages English, French, Dutch, Chinese, Japanese

PROFESSIONAL PROFILE

I started out as a linguist. In order to be a better fit for the employment market I then pursued a career in data analysis and project management. However I quickly noticed that I felt attracted to software development.

I am an organized, creative and solution oriented. My prior work experiences have taught me the importance of an open mindset and constructive criticism and helped me acquire an analytical mindset.

I am a self-taught software developer that loves learning new skills and tools.

TECHNICAL STACK

Python3

Flask, pyTest, unittest, Tensorflow, Keras, Numpy, Pandas, OAuth2, Pymongo, openpyxl

Javascript

Node.js, Vue.js, Typescript, Express.js, ejs, React
